## This is why Baby Foot® is simply the best

- 25 years of proven results - it works!
- The 17 natural fruit & plant extracts make Baby Foot® gentle on your feet
- Baby Foot® also moisturises and nourishes your feet while actively fighting foot odour
- With a spa-quality product range, Baby Foot® is designed for the convenience of at-home use

Taking care of your feet, one step at a time

## How does Baby Foot® work?

Baby Foot® is scientifically formulated with 17 natural fruit and plant extracts which penetrate the skin, breaking down the dead skin cell layers. When applied correctly, the dead skin gently peels away, revealing a new layer of soft, smooth and supple skin.

## The Baby Foot® product range

Baby Foot® products are made with the finest ingredients which are gentle on your skin:

**Baby Foot® Exfoliating Foot Peel** gives you spa-quality exfoliation and deep nourishment in the comfort of your home. Your feet certainly deserve the care and love of this 1-hour mess-free foot peel.

**Baby Foot® Peel-Enhancing Foot Soak** contains papaya plant enzymes and natural salts which relax your feet, while also gently stimulating the peeling process for even better results.

**Baby Foot® Hydrating Foot Mask** intensively hydrates and refreshes, returning the natural moisture to your feet. This 15-minute mess-free treatment is designed to use in-between foot peel treatments or when your feet need a quick “pick-me-up”.

Once you have peeled and hydrated your feet, complete the convenient at-home experience with the softness of **Baby Foot® Extra Rich Moisturising Foot Cream**. Formulated with flower extracts, Vitamin E and shea butter, this cream gently absorbs into your skin, keeping your feet deeply moisturised.

**Baby Foot® is a complete at-home foot care system designed for peeling, nourishing and maintaining healthy feet.**
